## Welcome

---

Welcome to our Restaurant & Farmhouse Freimann, a place where nature and traditional culinary delights mingle. The farm and restaurant have belonged to the family Freiman for over 14 generations and the farmhouse is over 450 years old. It was last renovated in the mid 1980's and much care was taken that the house which is a Cultural Monument kept its original characteristics and style intact. The seating indoors provides a cozy atmosphere while the outdoor seating in the summer brings you a beautiful setting to enjoy the freshly prepared food. Whenever possible we use regional and seasonal produce and the meat that comes from the farm is organic and of the highest quality. Tradition plays an important role in our restaurant and we are proud to present you with many traditional Swiss recipes that have been passed down through the generations. Our menu comprises a wide variety of dishes and we trust you will find something to your liking. Do not hesitate to contact us should you have any special requests.
